RE/VOLUME

molding perspective

Multi-functionality and utility influences are taking real shapes. **Hybrid solutions**, matched with mix of volumes and functions, transform the fashion architectures and give new **sculptural qualities** and performance, **smart wearable technologies** and **digital elements** are fused together with traditional techniques and fabrics. Hyper volumed garments will expand themselves into the space with a pop up effect and will be tailored on individual needs, focusing on technological and **environmental issues**. The Re/Volume zeitgeist will emerge in new values and Re/Volutions.

Multiply

Inflated bubble shapes, deconstructed beauty, amplified volumes, baroque revelations, gender neutral.

Airport

Streamlined and geometric shapes, luxe athleisure, fluidity of movement, technical layering, square structures, easy pack, high speed moving, digital illuminated.

24h

Enhanced normcore, elegant slouchy comfort, redesign the classic, office escape, distinctive super dark, contemporary layering.

Slowmotion

Composed soothing ensembles, the art of relaxing, soft minimalism, cocoon loungewear, caring evolution, earth empathy, comforting materials and colors.

Routility

Revised utility elegance, rectangular slender silhouette, sartorial pocketing, routine creates new needs, functional deluxe, refreshed heritage tweed denim, metropolitan armor, wool/cotton blends.

Rootless

Clash aesthetic volumes, growing sustainable vocation, uniqueness and empowering ego, re-assembled folklore, modern nomadism, interchangeable mixtures, cross gender/cross culture.

Expedition

Hybrid composition of volume and materials, protective egg shaped, thermal layer, spirit of discovery, shelters from extreme environments, desire for responsible products, mountain escaping.
